

Intensification of the decadal activity in Equatorial Rossby Waves and linkage to changing tropical circulation

Wan-Ling Tseng, S.-Y. Simon Wang, Huang-Hsiung Hsu, and Jonathan D.D. Meyer

SUPPLEMENT

250hPa meridional wind ERWs variance

250hPa meridional wind spectra

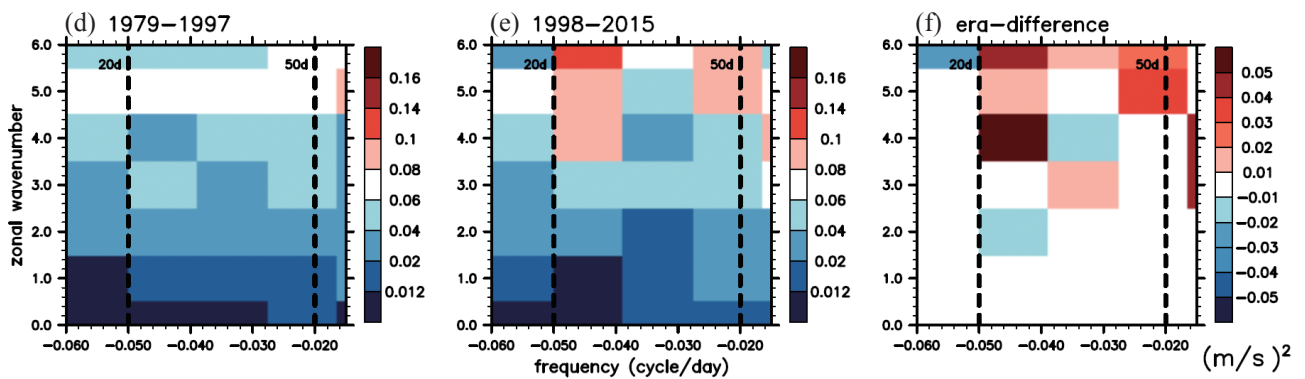

Fig. S1. Same as Fig. 2, but 250 hPa meridional wind (unit: m s^{-1}). (d) - (f) are averaged by symmetric $10^\circ\text{S} - 10^\circ\text{N}$.
